If you enjoy using sniper rifles in first-person shooters, and are open to a different kind of experience, I would definitely recommend this game.. [ly/2SPpWzrAbout](http://bit.ly/2SPpWzrAbout) This GameIn a tortured world inhabited by bloodthirsty monsters, one man rises up to prevent the annihilation of the human race!Alien zombies have landed, and from their tripods they are overseeing the destruction of humanity!Armed with your sniper rifle, a single EMP device for use as a last resort, and new time-control technology wrested from the invaders, your mission is to purify the zones that the resistance movement has identified as strategic!But the aliens will soon realize what's happening and will try to destroy the purification device at all costs... You will have to stand against the hordes of mutants that they will throw into the fray in their attempt to destroy the device.. for me the baddest game i played at steam next to the counterstrike zombie\u2665\u2665\u2665\u2665\u2665but there i could play,here i start search ammo.. The bosses are very big and the universe very interesting Sometimes feels tension and constant stress.. you get high medium low thats it no options Game doesn't restart right, I also had to quit using task manager quit button doesn't even work.

99 why not It's really not good I blew the leg off a zombie and this sucker just skated across the terrain lol, didnt even hop.. snipz salona video game for ugly fat people Definitely one of the baddest games i ever wasted my money.. The way they attack ruin it I will update this if they fix anything and anyone cares..
